NO COMMISSION.

Plan to Have Congressmen Come to See Us Fails.

Washington, D. C., June 16. (Special).—The proposition to send a Congressional committee to Hawaii for a summer outing was made in the Senate Friday last.

It came in the shape of a resolution submitted by Senator Mitchell, of the Committee on Pacific Islands, who, in introducing it, said he wished it understood that he could not serve on the committee and therefore should be relieved from the suspicion of any effort to get up a picnic party. The resolution proposes to authorize the Committee on Pacific Islands to investigate the general condition of the Islands of Hawaii, the administration of the affairs thereof, area, condition, quality and value of the public land, methods of leasing and selling, and to make such recommendations as may be deemed necessary to investigate the area and value of the crown lands, the rent and other revenues received therefrom since January 17, 1893, whether or not the former Queen now possesses any legal or equitable right or title to the same, the granting or franchisees or other privileges, the question of immigration, the condition of labor, and to enquire into and report upon all other necessary matters pertaining to the executive, legislative, judicial, educational, tax, school, financial and other systems of the Islands.

It authorizes the committee to send for persons and papers, visit the Islands, administer oaths, sit during the recess of Congress, and directs it to report at the beginning of the next session of Congress the result of its investigations, the expenses of the investigations to be paid out of the contingent fund of the Senate.

Senator Hoar whom it will be remembered, has always taken an interest in the claim of Queen Liliuokalani, for reimbursement for the loss of her lands, secured the insertion in the resolution of the following: "Or whether said Queen has any claim against the United States, legal or equitable, by reason of having parted heretofore with her title therein."

This was accepted and incorporated in the resolution. A brief discussion relative to the proper committee to which the resolution should be referred resulted in having it sent to the Committee on Pacific Islands, with the understanding that, if favorably reported from that committee, it would then have to go to the Committee on Contingent Expenses.

Its fate before the latter committee was indicated by an inquiry made by Senator Platt of Connecticut, who asked, "Is there a provision in the resolution that they are to visit the Islands?" When told there was, he rejoined, "I hope the committee will not report back any such resolution."

MISS ETTA LOEBENSTEIN WINS.

Chosen by Large Odds as Hilo's Goddess of Liberty.

The Goddess of Liberty competition closed last Saturday night at 8 o'clock with a rush of voters for the three candidates Miss Loebenstein, Porter and Eaton. The count of the votes showed Miss Loebenstein the victor with a total of 962. Miss Porter came out with 662 and Miss Eaton 324. The victor was as her estimable competitors were the recipients of warm congratulations from their numerous friends.

The "Goddess of Liberty" will be the central figure in the street parade this morning. Miss Loebenstein who has fairly won the honor of representing the part will be richly costumed. A committee on robes has been at work for several days in securing the appropriate gown and jewels for the occasion. The statue up has been modeled after the style of Bartholdi's statue, Liberty, enlivening the world with one alteration, Miss Loebenstein will be sitting instead of standing. After the parade, the Goddess of Liberty will be given a seat on the Speaker's pavilion at the Hilo hotel lawn.

Pump Improvements.

The buildings for the Puna Water Company are ready for the installation of machinery. The buildings consist of a large bottling house, pumping room and residence for the manager. It is understood a standing order has been placed 75,000 of bottles Volcano water for monthly export. This water is gradually finding its way into public favor, more particularly in the Islands.

Elks at Home.

Hilo Lodge of Elks No. 759, has secured a home of its own. The hall in the second story of the Tribune building has been leased by the Order and fitted up to suit its purposes. The visiting Elks will find themselves welcome at Elk Headquarters. The hall has been divided into an assembly hall, parlors, ante rooms and buffet.

Base Ball Tomorrow.

A picked nine from the Honolulu baseball players now in the city will cross bats with a picked Hilo nine for a purse at 12:30 p. m. tomorrow at Hoolulu Park. Some of Honolulu's crack players will be on the diamond and the best ball game of the year will be seen. Crow will pitch for Hilo, alternating with Brown. Spaulding will catch. Cunha will probably catch for the visitors.

Fell from Lariat.

Mrs. J. Kelker was badly hurt last Friday evening by falling from the lariat at the residence of C. H. W. Hitchcock where she lives. She fell a distance of about five feet striking her face on a rock which made an ugly gash on her right cheek. A physician was called and it was found necessary to make a number of stitches to close the wound on her face.

Patriotic Service.

At the First Foreign Church Sunday evening, Rev. Mr. Cruzan conducted patriotic services in commemoration of Independence day. He delivered an able discourse on the subject of "Patriotism." One of the most enjoyable features of the evening was the Star Spangled Banner, sung by Mrs. H. L. Ross.

Next Sunday will be the last that Mr. Cruzan will occupy the Foreign pulpit. He expects to sail on the Santiago next week. At the morning service he will speak especially to the members of the Church. In the evening he will give a final sermon especially to young people, on "Possibilities."

FIRE CLAIMS PROSPECTS.

Indications Good That Appropriation Will be Made.

Washington, D. C., June 16.—(Special).—The House Committee on Appropriations has reported the last of the big appropriation bills, the general deficiency bill, and it is believed it will be considered and passed by the House during the present week. When it reaches the Senate, and is referred to the Senate Committee on Appropriations, the amendment reported by the Senate Committee on Pacific Islands and Porto Rico, providing for payment of the Hawaiian fire claims will be considered by the committee, and it is believed will be incorporated in the Senate bill. If this should be done, the item will have to run the gauntlet of the Conference Committee, which will be appointed to pass upon items in dispute between the House and the Senate.

It is possible a further amendment will be incorporated in relation to the payment of these claims, providing for an examination of them by some department of the General Government, either the interior or Treasury Department.

Mr. Pratt, representing the Honolulu Chamber of Commerce, has performed exceptionally valuable work in securing the adoption of an amendment to the general deficiency bill by the Senate Committee on Pacific Islands. His work has not ceased with obtaining this result. He is energetically and diplomatically working with Senate and House members in behalf of the desired legislation.

The amendment, as reported from the Committee on Pacific Islands, is as follows:

Amendment reported by Mr. Foraker, from the Committee on Pacific Islands and Porto Rico, to the bill making appropriations to supply deficiencies in the appropriations for the fiscal year ending June 30th, 1902, and for prior years, and for other purposes viz: Insert the following:

To pay in part the judgments rendered under an act of the legislative assembly of the Territory of Hawaii by the fire claims commission of that Territory for property destroyed in the suppression of the volcanic plague in said Territory in the years 1899 and 1900, one million dollars. And the Governor and Secretary of said Territory are hereby authorized to issue the bonds of that Territory in such sum, not exceeding five hundred thousand, as, together with the money hereby appropriated, may be sufficient to pay all of said judgments. Said bonds shall be payable in gold coin of the United States of America of the present standard weight and fineness, shall bear interest at the rate of 4 per centum per annum, payable semi-annually, and be redeemable in not less than five years from the date of issuance.
